## Urge Provincial Government to Remove Restrictions on Municipal Aid Grants

With the opening of the Alberta Legislature on Thursday, Feb. 21, no decision had been announced on a request that the Municipal Assistance Act make grants to Municipalities "entirely unconditional."

## Junior, Senior Girls Hear District Home Economist

LAC LA BICHE—The Senior Girls' Club of Lac la Biche met with the Juniors for their regular meeting in the Grade X-XI classroom in the High School Wednesday afternoon of last week. The main subject of discussion was sewing, and given by Miss Andreassen, District Home Economist.

In addition to inspecting the work the girls have done thus far, Miss Andreassen displayed other work, which she brought with her to Lac la Biche. In discussing the subject of sewing, an outline was given by the District Home Economist of work to be done during the balance of the year.

The next meeting of the Senior Girls is to take place at the home of Gail Hayduk. Frances Slager is president and Dorothy Hall secretary of the Senior Club.

Miss Buelah Quast, of the Weather Office, is supervisor of the Senior Girls.

## Low Raw Fur Prices

LAC LA BICHE — A drop in the price of ranch mink furs and very low prices of most wild animal fur has resulted in greatly reduced incomes for most district residents depending on the fur industry. A drop of 50 per cent in the price of ranch mink and even greater drops in the prices of foxes and lynx have been noted. Price of wild trapped mink has held up well, however.

Local fur dealers blame high federal taxes and consumer credit restrictions on sales of expensive fur garments for the depressed raw fur price in the industry.

Last year the government arranged for grants to municipalities which decreased their mill rates. The result has been that those districts in flush financial condition get the grants, and those hard-pressed districts which need it most are barred if they can't reduce their mill rates.

A committee representing the Alberta Union of Municipalities presented the resolution to a committee of the provincial cabinet, headed by Premier Manning. But no definite decisions were reached.

At present the local governments receive unconditional grants equivalent to 3½ mills of their tax rates, under the legislation adopted last spring. As well, they may qualify for additional grants up to an equivalent of three mills by reducing their own mill rates. Edmonton and Calgary, received both grants unconditionally last year, and this year both these cities and all other local governments are asking that the conditional clause be waived until more stable civic financing conditions prevail.

Last year the province pledged the provincial gasoline tax revenue for the grants, which amounted to about \$5,000,000.

Included in the delegation for the municipalities were: Charles Hayes, Strome; Alfred Haarstad, Bentley; David Roberts, M.D. Strathcona.

## Young People Plan One-Act Play

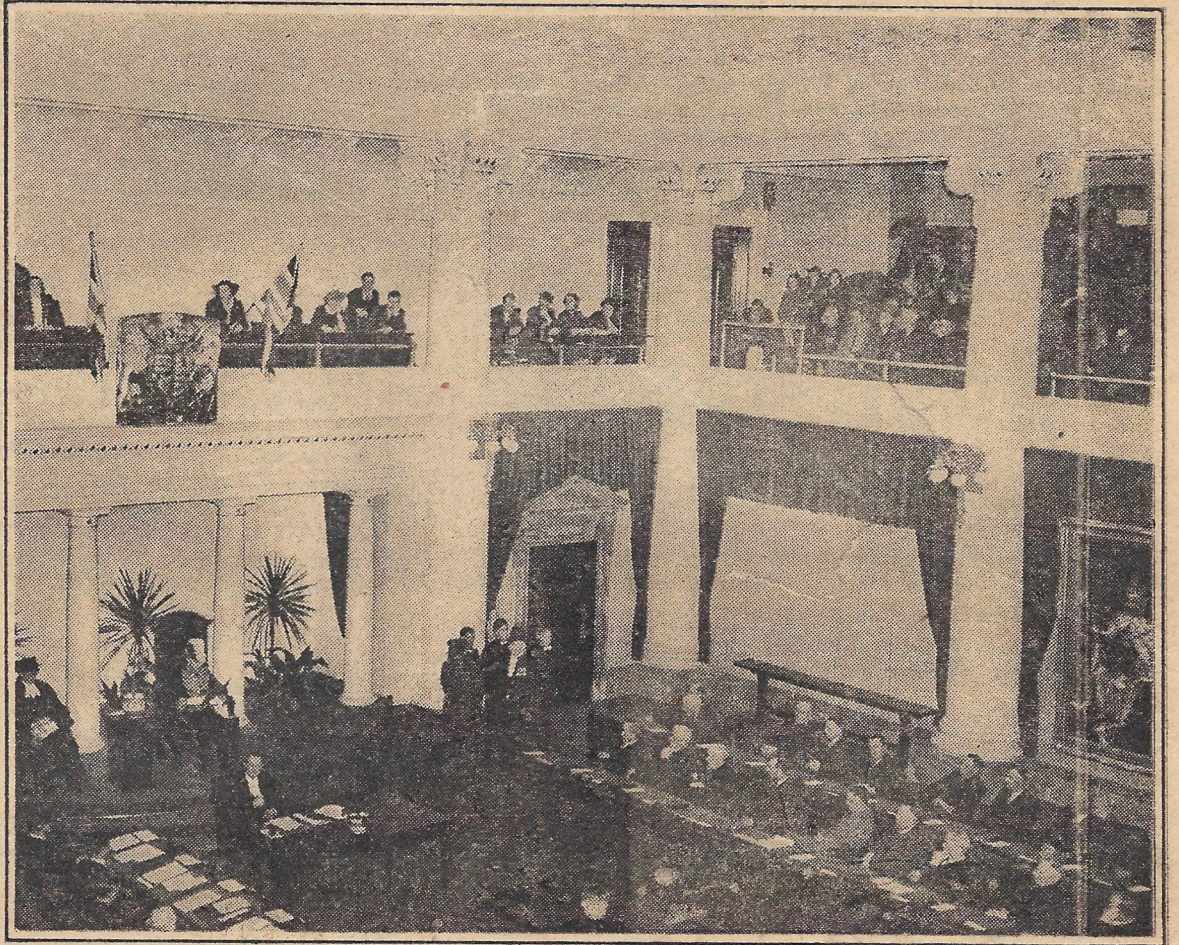

LAC LA BICHE—The Young People of Lac la Biche United Church plan on putting on a play in the near future. Arrangements have not yet been completed as to the time or place, but it is expected the play will be put on about the end of March.

Warren Williams is president of the United Church Y.P. Group, and Doreen Proctor is secretary. The group was organized last fall under the guidance of Rev. D. Greenough.

## Montana Steve's Western Stage Show

LAC LA BICHE — Monday, February 25th, a sensational trained show horse, "Flicker," performed amazing tricks on the stage in the Lac la Biche Memorial Hall. Flicker tells fortunes, tells the time on a watch, tells colors, or numbers; she shakes hands, tells your age, counts to whatever number you ask her; she will tell you if she likes you or not, says yes and no, acts dead, sits up when told, lies down on Steve, stands on a nine-inch square block a foot high off the ground, and lies down when asked to. She weighs 1200 lbs. and does 55 different tricks.

Montana Steve started training her when she was two weeks old. She will be nine years old in May. "Montana Steve" and his famous horse Flicker, during the past five years, have been on tour throughout Canada and the Eastern States. They have entertained

The Alberta Legislature opened Thursday, Feb. 21, for the 1952 session, probably the last before another Provincial election expected to take place in August.

Above is a view of a sitting in a session of a

former year. For the first time there is an official opposition to the Social Credit Government of Premier E. C. Manning; headed by Liberal Leader Harper Prowse.

audiences in many parts of Alberta and as far east as St. John's, Newfoundland, the Northern States, the Yukon Territories and Alaska.

This famous horse show supplied plenty of entertainment for the audience and there was a large crowd in attendance, and at the dance which followed.

Montana Steve states he expects to be back here with another trained horse in the fall.

## A DESCRIPTION OF PULPWOOD INDUSTRY IN LAC LA BICHE DISTRICT

By SYLVIA SAWCHUK, Hyla

Lac la Biche and its surrounding area is a huzz-buzz of saws and axes of people who are busily engaged in bringing in pulpwood, the demand for which is steadily increasing.

Pulpwood is cut of spruce wood in eight foot lengths and must not be less than four inches in thickness. It is sold in cords, averaging

from fifty to sixty logs a cord, depending on the size.

Either dry or green pulpwood can be sold. If green pulpwood is sold, it must first be allowed to dry for one summer. This is usually referred to as seasoning.

Pulpwood is a good paying business. The prices range from \$11.50 to \$12.50 a cord for dry wood, to over that for seasoned. The person wishing to engage in this business must first pay a permit of \$1.10 a cord.

The main purchasing agents in Lac la Biche are: The Alberta Pulpwood Co., Michael Hamer and T. B. Lett.

Pulpwood is found mainly in the areas south of Hyla, north-west of Tweedie, and on the Indian Reservation, the latter area being open for Indians only.

Much of our pulpwood is imported by the U.S.A., which is one of our best customers. Canada produces one-half of the world's newsprint. Three out of five of the world's newspaper pages are printed on Canadian paper. Some of our main and nearby plants are located in Prince Rupert and Regina.

Pulpwood is used mainly in the paper industry, there being many grades of it.

The wood on arrival at the paper mill is first debarked, and then chopped up into finer pieces, after which it passes into large chambers. The pulpy masses go through a controlled chemical process.

A large variety of goods is produced from pulpwood, among these being nylon, which is made from seasoned wood.

## Alberta Senator Says Yellowhead Road Route Will Be Used For Highway

That the Yellowhead route will eventually be used to run a highway from Edmonton to the coast is certain for the future, but Senator James A. MacKinnon feels that now is the time to urge a start on the project.

Construction of a Trans-Mountain Oil Pipeline Co. export line from Edmonton through the Yellowhead Pass to Vancouver makes it "most opportune" to press for the building of a national highway

over this route, Senator James A. MacKinnon said on his arrival Wednesday. He is at the Macdonald.

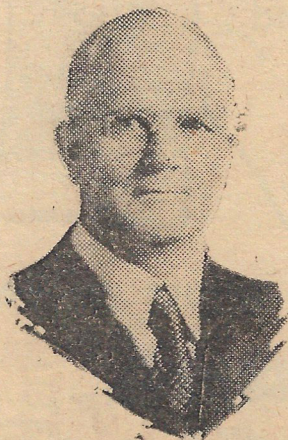

"In my opinion, the provincial governments of Alberta and British Columbia, the federal government and the Trans-Mountain Co. should get together and discuss the situation," said Mr. MacKinnon.

"It might be possible to co-ordinate plans for right-of-way so that provision can be made for road needs. If these negotiations are not in progress, they should be commenced as soon as possible," said the senator.

Mr. MacKinnon emphasized that the highway should follow the North Thompson River by way of Kamloops, which was the route he had been steadfast in advocating during various discussions of the problem.

"Outside of defence considerations, the highway should take that route," he said. "Coupled with military strategy, it is all the more essential."

HON. JAS. A. MACKINNON, who predicts a Yellowhead route highway to the Coast will be a natural result of the building of the oil pipeline.

## AURORA THEATRE

Lac la Biche Alberta

PRESENTS

### BIRTHS

To Mr. and Mrs. Luke Dionne of Egg Lake, a daughter, on Feb. 23.  
To Mr. and Mrs. Alan Amiot of Gourin, a daughter, on Feb. 25.  
To Mr. and Mrs. Fred Munawich of Owl River, a son, on Feb. 27.  
To Mr. and Mrs. Remi Coutre of Owl River, a son, on Feb. 29.

### BOYLE NEWS BRIEFS

Thursday evening, Feb. 21, a whist drive and bingo were held in the Warren high school, sponsored by the Students Union. Prizes were given to the two highest and two

lowest scores. Miss Pearl Holst won a diamond ring for having the highest score of the women and Mr. Frank Thompson won a box of chocolates for having the lowest score of the women. Mr. Frank Thompson won an ash tray for the highest score of the men. Gordon Walker won a pair of socks for having the lowest score of the men.

Montana Steve and his famous horse Flicker was seen in Boyle February 22. A stage show was held, followed by a dance in the evening. A large crowd attended.

Saturday morning, March 1st, Warren School students went to Edmonton to look through the University of Alberta. Thursday evening the "Dainty Diners" held their regular meeting in the Home Economics Room, at the school. Miss Andreason, the founder of this club, visited and gave a talk on "Canada's Food Rules." For a demonstration: Lorraine Ball and Patsy McNamara gave a talk on the method of making muffins. The hostess, Shirley Harmata, seated everyone, and cocoa, and muffins were served for lunch.

Born to Mr. and Mrs. Art Hansen, a baby girl, Saturday, Feb. 23.

Mr. W. Carpenter, Daniel Lecky, Henry Loy and F. Thompson attended the Liberal Rally held in Athabasca on February 9.

There are nearly 6,000 bridges and sixty-four tunnels on the Canadian National System.

## The Lenten Season

By HENRY G. HARPER, Boyle

The Season of Lent is an Annual Feast or time set apart, a period for man to take stock of himself (religiously) just as the business man does from a business or financial view.

The Prophet Joel (2:12) explains this in the words: "Turn ye even unto me, saith the Lord, with all your heart and with fasting and with weeping and with mournings, and turn unto the Lord your God."

There is a purpose with and through these words. Self-examination is the first for man to consider. Repentance follows, after which forgiveness of sins follow, enabling us to reconsecrate our lives to God in preparation for that eternal life, if we so desire.

The Church has ordained that this season shall be observed, as a means of following out her teaching and thereby getting closer to Christ. To be with Christ Jesus in these Forty Days simply means that to do so we must be definite in all we say or do.

"Let your light so shine before men that they may see your good works."

Let us try and live with Christ. Jesus and study His friendliness, loneliness, His sufferings and, in doing so, open our hearts and bid Him enter.

"Come unto me and I will give

you rest." Yes, we need the rest, from all the turmoil of this unsettled world. As we understand rest for the physical body, so we need rest for the spiritual body.

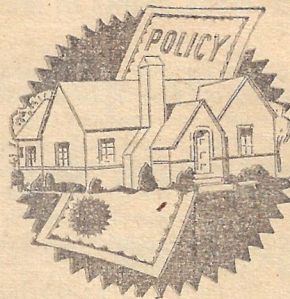

"Come ye apart and rest awhile. Prayer is the key to Heaven."

May I suggest a little time for prayer each day, a time of communion with God.

Bible reading is a great inducement to prayer, which will surely lead us to the Throne of Divine Grace.

"A true heart."

"A heart true towards God."

# ALBERTA RED CROSS WOMEN SHIP CLOTHING OVERSEAS

Mrs. Katherine E. Mason of Calgary, honorary chairman of the Women's Work Committee and national vice-president of the Canadian Red Cross Society, gave the annual report on women's work in Alberta when she addressed the 37th annual meeting of the Society at Edmonton during its two day session February 21 and 22.

The speaker reported that the wives and mothers of the province have tallied an outstanding amount of work during the past year with 18,120 knitted and sewn articles and 371,684 surgical dressings.

Great Britain, the Gaza area, Korea and Germany, received a total of 13,841 articles of clothing and bedding as follows: Great Britain, 7,889; Gaza, 4,616; Korea, 245; and Germany, 1,091.

In Canada, the port nursery for new Canadians at Halifax received 234 articles of clothing; military hospitals, 279; and the Red Cross Crippled Children's Hospital 60 articles of linen and 14,542 surgical dressings.

Mrs. Mason stressed that all supplies for the Blood Transfusion Service in Alberta are made by the women of the province. This year the total received by the service included 1,180 sewn supplies and 373,509 surgical dressings. Red Cross welfare distributed 210 items of clothing and bedding and 210 surgical dress-

ings while victims of disaster received 96 new articles.

Emphasizing that Red Cross is ready for any emergency, Mrs. Mason told the delegates that 16,550 items of wearing apparel and 246,380 surgical dressings are stockpiled at Division Headquarters for emergencies.

"Though we have more workers in our committees today than we have had since the end of the Second World War, we still need volunteers," said Mrs. Mason. "Suffering and need are on the increase throughout the world and to many, only the Red Cross can send help. Knowing neither color nor creed, Red Cross may scatter its charities to all."

## Tryweight Champ

DETROIT—Skee Pippens, 41, who weighs 108 pounds and stands an even five feet, was warned not to try trimming any more of Detroit's finest down to size.

Pippens pleaded guilty to a drunk charge and sentence was suspended. Patrolman Joseph Jozell, towering 6 feet 5 inches and weighing in a 288 pounds, said Pippens "tried to get belligerent" with him.

## IMPERIAL MILLS NEWS BRIEFS

Mr. Mike McPredy, Wearever representative from Smoky Lake, was host at a "Wearever Dinner" at the home of Mr. and Mrs. R. Couture. Among those present were: Mr. and Mrs. R. Bouchard, Mr. and Mrs. A. Hamelin, Mr. and Mrs. R. G. Fisher, Mr. J. Hyuppi and Mr. and Mrs. R. Couture. A delightful dinner was served which was enjoyed by everyone. After dinner an interesting and enlightening talk was enjoyed.

Mr. Fred Alexander, planer foreman here, has been ill in bed for the past few days with the flu and has now been moved to the Lac la Biche hospital.

Mrs. Bob Almond was a visitor

in Edmonton for a few days.

Mrs. Charlie Francis has been in the hospital at Lac la Biche for the past few days.

Mr. Ken Cammidge of Edmonton has been occupied in covering the bush road with sawdust for the past week or so. This is to help keep the frost in the ground so the trucks will be able to haul lumber a little longer.

Mr. and Mrs. Emile Bolander have moved out to Camp 1 to take over the cooking responsibilities there.

Mrs. Bob Hutchinson and sons, Patty and Guy, her sister, Miss Bessie Reaney, and Mr. Pat Leonard, left on Sunday for their homes in Kinistino, Saskatchewan.

Mrs. Hutchinson and her two boys will be enjoying an extended visit

## PLAMONDON NEWS BRIEFS

Mr. Laurier Plamondon has gone to Edmonton for medical treatment.

Mr. and Mrs. August Tremblay have moved into the Abel Plamondon house.

Mr. and Mrs. Aristide Germain and family have moved back on the farm, to get ready for Spring work.

Mr. and Mrs. Walter Brulatte and son are visiting at the home of Mr. and Mrs. Albin Gauthier.

Mr. and Mrs. Urban E. Plamondon with her family and will return here some time in April, while Miss Reaney and Mr. Leonard will remain at Kinistino.

don have moved back to their home town. Mr. Plamondon is employed with the telephone crew at present.

The Plamondon Sewing Club had their meeting at the home of Mrs. Somerville February 27. The guest speaker was Miss Andreason. The project is "Choosing Your Spring Wardrobe."

The directors of the Plamondon Agriculture Society had their meeting February 26. Mr. Godell was the main speaker. He gave a very good explanation of the Farm and Home Improvement plan.

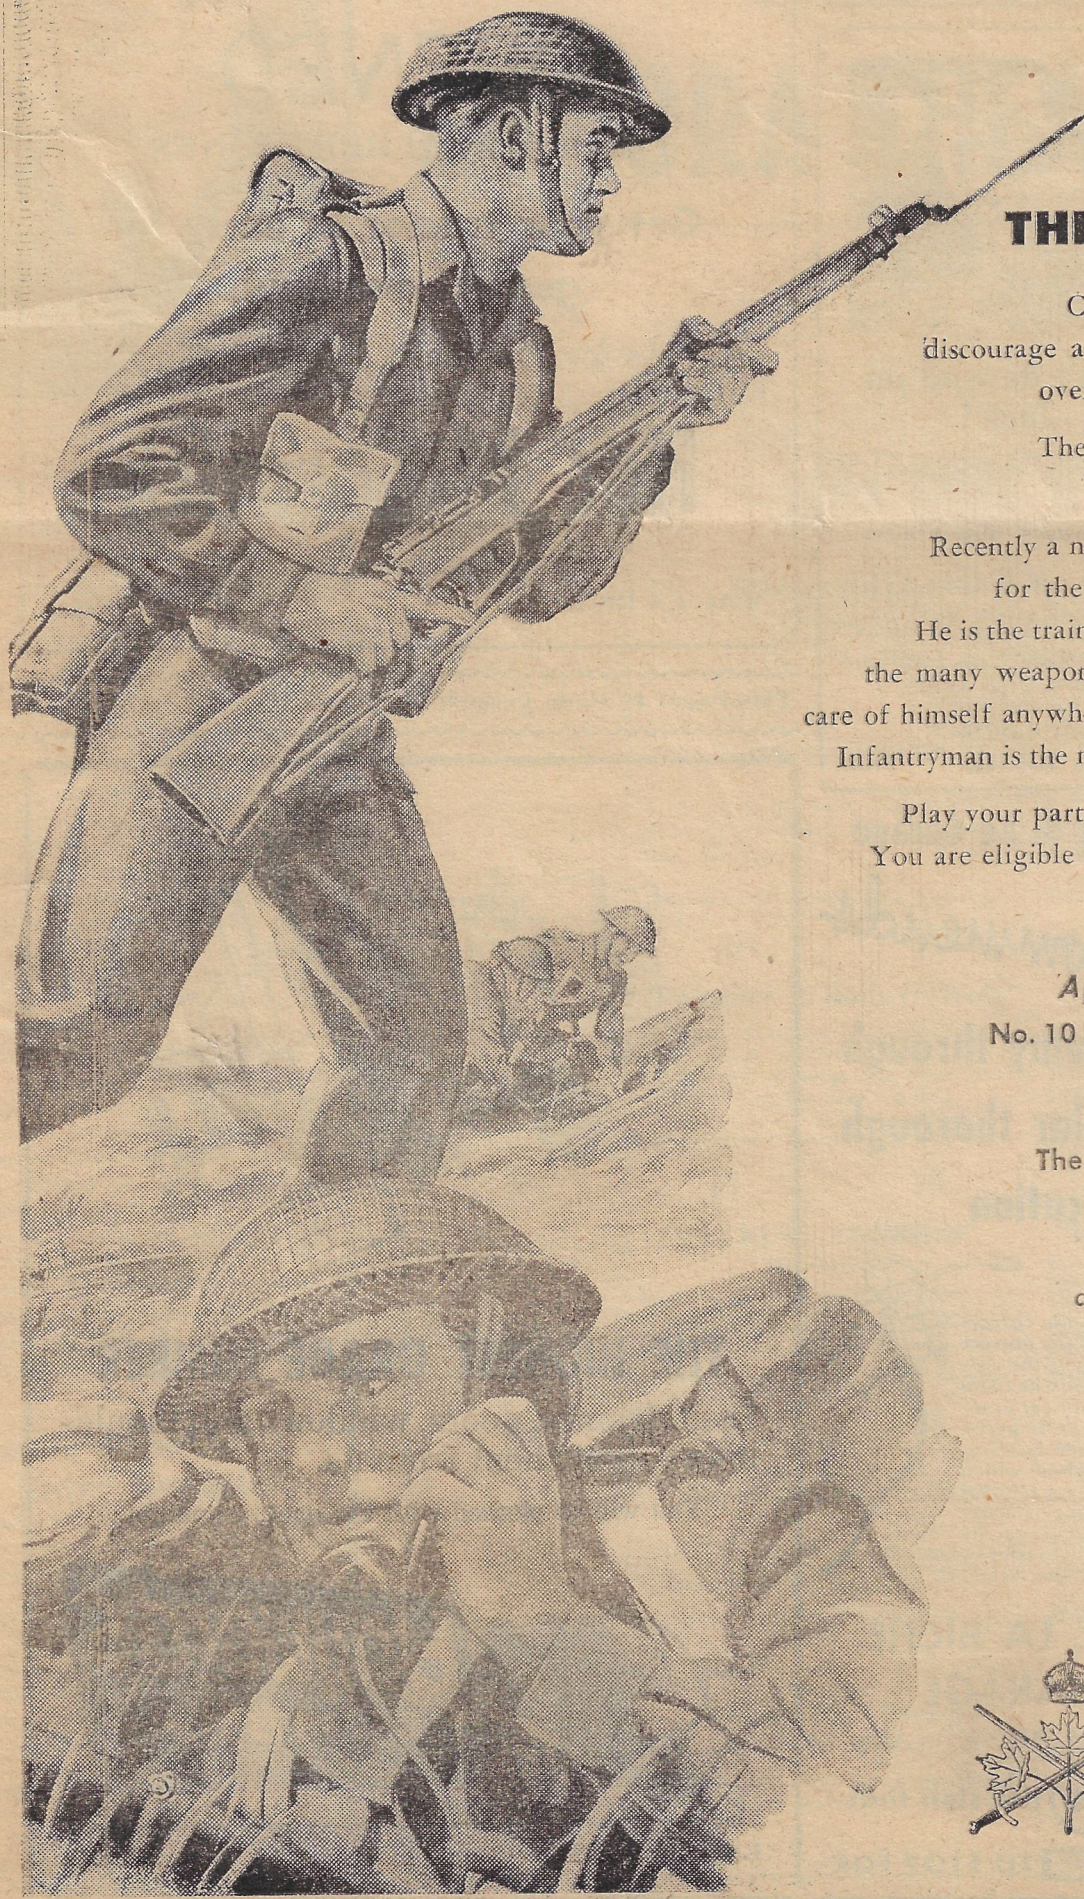

The ladies of Plamondon gave a very successful card party Sunday evening in the parish hall. Ladies in charge were Mrs. Ovide Bosse, Mrs. Adolph Bosse, Mrs.

Arthur Duby, Mrs. Alex Gauthier. Those who won prizes were: Mrs. Napoleon Gauthier, first prize for ladies; Mrs. Emelian Minard second; for men, Albert Germain first; Narciss Minard second; booby prize, Mrs. Poulin and Andrea Ulliach. Games that were played were pedro and five hundred and enjoyed by all. A free lunch was served.

Mr. and Mrs. Jim Rudigar of Dawson Creek have paid a visit to relatives and friends in Plamondon and district.

Congratulations to Daniel Bosse in honor of winning a prize on a barley contest. He attended a banquet at Legal Tuesday, Feb. 26. A barley certificate and \$40 was presented him as a prize for his carload of barley.

# GUARDIANS OF PEACE

## THE LEADING INFANTRYMEN

Canadian soldiers are playing a world-wide role to discourage aggression . . . to help guard peace. At home and overseas, our soldiers stand as — Guardians of Peace.

The Canadian Infantry Soldier is the toughest, the best equipped fighting soldier in the world today.

Recently a new specialty with extra pay and prestige was created for the Infantry Soldier. This is the Leading Infantryman.

He is the trained Infantry Soldier. He has learnt to handle expertly the many weapons of modern infantry. He has been trained to take care of himself anywhere, any time, in any kind of situation. The Leading Infantryman is the most thoroughly trained fighting soldier in the Army.

Play your part in Canada's most important business today, defence. You are eligible if you are: 17 to 40 years of age, (tradesmen to 45), physically fit and ready to serve anywhere.

**NEW X-RAY MACHINE**—Shown examining the \$9,000 X-ray machine presented to the Holy Cross Hospital, Calgary, by the Alberta Tuberculosis Association recently are (left to right) G. G. Eaton, Past-president of the TB association; Victor Pryce, hospital manager; C. Robert Dickey, executive secretary of the TB association, and Sister Superior Noel. Patients entering the hospital in the future will automatically be given a low-cost chest X-ray as part of the admittance routine. It is hoped that

98 per cent of all patients in the hospital, including out-patients, will be examined. The films will be inspected by the staff radiologist and suspected cases given further examination. Reports have shown that three to four times the number of TB cases are found in persons entering a hospital as are found in general public groups. There are 18 X-ray machines in hospitals in the province installed by the TB association at a cost of \$65,000. All this amount was obtained through annual Christmas Seal campaigns.

## Relief From Grasshoppers Expected This Year

Alberta farmers won't have as many grasshoppers to bother them this year as in 1951. Effective control measures and unfavorable weather during last year are responsible for the decrease in grasshoppers.

During this year, grasshoppers will cover an area of approximately 2,500,000 acres; in 1951 the crop-damaging insects spread over more than 11,000,000 acres. Even in this reduced area only light infestations are expected.

Southern and eastern districts of Alberta will be the chief districts affected this year—especially around Bodo, Hemaruka, Coronation, Craigmyle, Three Hills, Irricana-Conrich and east of Carman-gay.

Types of grasshoppers will vary with the areas. Between Calgary and Lethbridge, lesser migratory and two-striped grasshoppers will be the main types.

Canada supplies almost the entire world's supply of canned lobster.

## Expect New Oil Boom In Ft. St. John Area

FORT ST. JOHN, B. C. (BUP)—British Columbia's first oil field may spring to life shortly in the storied Peace River area following discovery of "strong" oil and gas showings near here.

Unofficial reports that a test well known as "Peace River Allied Fort St. John No. 1" has produced an encouraging showing of oil at 2,700 feet, combined with a gas flow of 403,000 cubic feet.

The well, drilled by Pacific Petroleum Ltd., is located on the Alaska Highway, five miles from the centre of this northern B.C. outpost.

Drillers are now below the 2,700-foot level and have hit favorable geologic formations 500 feet higher than expected. The additional advantage of a highly porous structure has led some geologists to predict that a large oil or gas producing zone will be found somewhere in the area.

The formation, described as the "most promising" yet hit in B.C., has already resulted in a sharp increase in sales of oil rights in the area, with at least one large transaction being completed.

## Will Extend Signing Of Alberta Highways

More signing of highways is receiving the attention of branches of the Alberta Motor Association. It is expected that this season will see several thousand of these signs erected on secondary highways by this organization.

At a recent meeting of directors of the Edmonton branch, it was decided to seek the full co-operation of municipalities in regard to obtaining accurate information for the purpose of locating road signs. The co-operation of RCMP and commercial travellers also will be sought.

While road signing programs have been carried on each year, at a cost of thousands of dollars to the AMA branches, there still are long stretches of highways that lack proper directional information.

This year, it is estimated that Alberta will have a tourist business turnover in excess of \$30,000,000. This means that many thousands of visiting tourists will travel Alberta for the first time and will tour territory that is strange to them.

Anything that can be done to improve highway marking will pay off in goodwill dividends, in addition to the actual cash business these tourists will bring to Alberta.

Highways also are being improved each year, and roads, brought to higher standards. All this creates fresh demands for an adequate system of highway marking, giving satisfied customers for the tourist industry. Such benefits are reflected not only in the urban centres but also in the district communities.

## Wins Divorce By A Nose

PASADENA, Calif. — Her husband's oversensitive nose became too much for Mrs. Tarter to bear. So in Superior Court here, Judge Kurtz Kaufman granted the woman a divorce from John Virgil Tarter, 71, a retired cabinetmaker.

Mrs. Tarter testified that her husband used a chemical preparation and an electric fan to remove the "objectionable" smell of bacon and eggs.

When guests lighted cigarettes in the house, Tarter opened all the windows—regardless of weather—and burned incense, the court was told.

"Now I've heard everything," Judge Kaufman, said in granting Mrs. Tarter a divorce decree.

While You Sit Reading  
**FIRE MAY FLARE  
IN YOUR HOME!**

—but with **PRESTO**  
it's out in seconds!

**ONLY  
\$5.95  
each**  
Including Handy  
Wall Bracket

**CB**

**FIRE  
PROTECTION  
FOR HOME, CAR  
"In the Palm  
of Your Hand"**

Ready for instant use on its handy wall bracket, **PRESTO** is so small, so light, it's handled easily even by a child. Yet it packs more fire-killing power than extinguishers many times its size and weight! Effective against electrical, oil, gasoline and all types of fires.

So inexpensive, you'll want one for kitchen, car, garage, attic. Don't delay. Don't take chances with your loved ones' safety.

8 McDougall Court  
EDMONTON

## HOLD-UP INSURANCE

In these days of increasing "Hold-ups" are you fully protected? We can arrange "Hold-up" Protection in respect of money being taken from the Store or in transit to and from the Bank. Consult:

**Weber Bros. Agencies Ltd.**

10013 101A Avenue

EDMONTON, Alberta

## FARMERS

Purchase your new or used truck from Waterloo Motors Limited, where a complete selection of our "Safe Buy" used trucks are available. For the better deal purchase from Edmonton's largest new and used truck dealer. Write, wire or phone and our country representative will be pleased to call on you and discuss your new or used truck problems.

Jasper Ave. at 107 St.

Phone 42171

## Have Farm Machinery Ready

It is not too soon to think of checking farm machinery and equipment after the long winter lay-away. There is sometimes delay in getting spare parts, and a machine that won't work is no help in the spring rush.

Only too often a worn part gives out or a casting breaks in the field. Generally these breakdowns could have been avoided by a winter overhaul. Bolts and set-screws used in adjustments can be the cause of much delay if they are found to be inoperative at a busy time.

While the machine may have been working well the last time it was used, it will work all the better for a thorough cleaning, checking and oiling during the off-season. It may save a breakdown at a busy time; it will certainly save wear and tear on the machine at any time.

## Everyday Living

### MORE ABOUT SELF IMPOSED HANDICAPS

Judge H. S. Hulbert, Juvenile Court, Detroit, had this to say—"I did not suppose there could longer be any doubt in any informed man's mind as to the harmful influences of cigarette smoking."

### THE CIGARETTE PAVES THE WAY AMONG OUR YOUTH FOR DRINK

Said the cigarette to the whisky flask,  
"I give the kids their downward start,  
Then you pitch in and do your part.  
They come to you with a burning thirst,  
But I am the fellow that sees them first."  
Then the whisky flask had this to say:  
"I never looked at the thing that way,  
But I confess you spoke the truth,  
'Tis you that tackles the foolish youth.  
You fill his system with dopey smoke.  
I mould him into a first class soak."

The Cigarette—weakens the heart—dulls the brain—poisons the blood—injures the lungs. Weakens a boy or girl, mentally, physically, socially and morally. IS THIS GOING TO BE YOUR CHOICE?

Dr. Harvey Wiley, former chief, Federal Bureau of Chemistry, Washington, said: "I commend Mr. Ford, Mr. Edison, and all people who join with them in efforts to curtail or restrict, obliterate or destroy the pernicious habit of cigarette smoking."

Madame Schumann Heink, the great singer, said to a group of young girls: "I want you to know that I never smoked, and I never will. I say it with all my heart it is a crime that you girls are poisoning your young bodies by smoking cigarettes. I am speaking to you as a woman and a mother, think twice before you adopt, or continue the cigarette habit, which will handicap you by tainting your blood with nicotine poison found in tobacco."

"... Know the TRUTH and the TRUTH shall make you FREE."—John 8-32.

UNCLE ED.

## Note and Comment

Harvey was what is known as a "salty old character." He had been in many places and done many things. Then in his late eighties he was converted and joined the church. A young friend of his, who may have felt that Harvey's change of heart was only a gesture, made some scoffing remarks to the old fellow.

"So you expect to go to Heaven, do you?" he said. "Why, Harvey, what do you think the Lord's going to say when he meets up with an old sinner like you?"

Harvey looked at the younger man steadily, then replied: "Well, I think He'll say, 'Harvey, I'm glad to see you. I know you're an old sinner—but I'm an old Saviour.'"

A. T. Baker, of Nemiscam, has been appointed to the senate of the University of Alberta. Mr. Baker is vice-chairman of the Alberta Wheat Pool board of directors.

## The Bible Today:

No man can serve two masters. . . . Ye cannot serve God and Mammon. Matt. 6, 24.

By T. W. PUE

Those little black pieces you see principally in rye you know as Ergot. It is one of the many problems that be-set prairie farmers. Too much ergot can poison you; used in the right quantities it is a miracle medicine. Too much ergot can cause abortion; used with modern medicine it is an aid for mothers where painful or delayed childbirth threatens.

Writing in New York, Herbert M. Hoffman attributes a recent wholesale poisoning in France to ergot.

Like a ghost from the Dark Ages, a strange malady struck at a French village. Before the outbreak subsided, four villagers were dead, more than a hundred suffered temporary madness and scores were violently ill.

The cause of the outbreak was "the bread of madness." All the victims had eaten bread from a batch of flour contaminated by ergot, a poisonous fungus that grows on grasses and grains. It is especially partial to rye.

A miller and a baker were held on charges of manslaughter. The miller, who was from another town, admitted he had shipped a questionable lot of flour to the stricken village because he was afraid to sell it in his own community.

In the Middle Ages there were repeated violent outbreaks of ergotism, which was called St. Anthony's Fire because it began with burning sensations in the feet and was for a time considered a visitation which might be allayed by prayer to St. Anthony.

The connection between the disease and the fungus infection of plants was first noticed by Middle European peasants in the 17th Century. Once this link was noticed, the occurrences became rarer. The last in the United States was in New York in 1835. The last in modern times was in Russia in 1926, when 11,000 became ill in a Ural district whose inhabitants lived largely on dark rye bread. At that time there were more than 90 deaths.

There is vitally no danger of such an outbreak in Canada because of modern farming and milling methods which remove the ergot (along with a lot of things that shouldn't be removed from flour).

The fungus forms a hard, dark, grain-shaped "seed" on the grain head. It is easily spotted on the grain and can still be seen, because of its purplish color, in coarse flour.

When it is eaten in bread, or in thickened soup its effect can be noted rapidly. Ergotism takes two forms, the gangrenous and the spasmodic. In the gangrenous form it acts to contract the small blood vessels, first in the extremities, and causes gangrene by stopping circulation. (There is an ailment called Buerger's disease, a spastic vascular disturbance which often necessitates amputations of the feet and hands. The doctor after whom it was named at first believed it was peculiar to Central Europeans who were accustomed to eating bread from ergot-infected rye).

In its spasmodic form, ergot's effect on the central nervous system is to cause hallucinations, hysteria convulsions, and in fact to send the victims crazy. Ergotism also causes miscarriages, not only in humans but in animals.

Yet the same ergot which once was dreaded—and may have been the cause of some of the great plagues which swept Europe from time to time—has been transformed into a boon to humanity. In recent years chemists have extracted from the crude natural ergot a number of pure and standardized substances which are useful medically.

Even in the Middle Ages, midwives knew the value of small doses of ergot to ease difficult labor. In later centuries, some doctors employed it in hard deliveries. Their concoctions of crude ergot, however, often did more harm than good, because the natural product varied greatly in strength and effect. It was unpredictable.

But now there is an ergot derivative (ergonovine and similar products) which has saved the lives of mothers in dangerously delayed labor or in hemorrhages following childbirth. This substance is one of a number developed when 20th century chemists broke down the natural ergot "package" and isolated its fractions. Now doctors can prescribe these preparations with safety, since they know what will happen.

Scientists are still breaking up ergot and finding new uses for it. It has for some time been a relief in migraine headaches, because of its action in interrupting the mechanism that brings on the headaches, the contraction of the blood vessels in the head.

It also gives promise of being helpful in frostbite, such as our soldiers suffered in Korea, and in Reynaud's disease which is a sort of non-frozen frostbite. Still another ergot derivative is being used experimentally in the treatment of mental disturbances, which would bring ergot around the full circle—from causing madness to curing it.

### PANS CITY WORKERS

A week ago, I made a hurried business trip to Edmonton. Arriving at the place of business about 2:45 in the afternoon, I was informed the party I wanted to see was out to coffee.

I sat down and thought I would only have to wait a matter of minutes, however after 15 of my valuable minutes had passed I again went to the counter, and was told the wait shouldn't be much longer, in all I waited 20 minutes.

At the end of the 20 minutes a group of about 15 young people walked into the office, all talking at once, none seemed interested in attending to business. What has gone wrong with people, don't they believe they have a day's work to do? Has management lost control of its help?

I have spoken to many people since this experience, and they tell me this sort of thing goes on in the city all the time. Who pays for this loss in time? If people would get down to business and do an honest day's work, the cost of living might drop. I understand Government employees only work 37½ hours a week.

Mr. Editor, I would appreciate you making a check on this and making some comment in your Editorial page, which we admire and appreciate.

Let's get back to the days of work, and stop this playing around and expecting to get paid while doing it.

J. W. R.  
Morinville.

### WANTS PAPER

I have read with interest your paper, "The Evansburg Pembina Herald". However, although I am a ratepayer, through some unfortunate oversight I am not mailed my copy of the paper. I would be very pleased if this situation could be rectified.

K. G. E. WADE.  
Evansburg, Alta.

### ROUMANIA VS. UKRAINE

Prince Soutzo, guest speaker at the Willingdon Master Farm Family banquet, apparently took for granted he was speaking to a gathering principally made up of fellow Roumanian countrymen. He should know that most of his hearers were Ukrainians born in Roumania, in his province of Bukovina. In any case, the false impression of this province and its 700,000 Ukrainian population should be corrected.

Bukovina, a province of Ukraine, was for a number of years occupied by the neighboring countries, but never were its liberties more suppressed than at the close of World War I when it became occupied by Roumania.

Like many other Ukrainian fellowmen who were born in Bukovina and who had enjoyed life in their province up to the time of the Roumanian occupation, I emigrated to Canada to escape the mistreatment of Roumanian rule.

Community leaders, teachers and clergymen and other active people were arrested and kept in jail without trial. Mock political trials were set up. People were forbidden to speak their native Ukrainian language or to attend their Church services. There was no freedom of speech, of worship, or of the press under Roumanian dictatorship. It was an era when personal liberties were suppressed and not one of prosperity and happiness.

NICK DEMETRIUK.

Andrew, Alta.

### WILL RENEW SUB

I had decided not to renew my subscription but the last few copies have been so much better than the paper a year ago I wish to renew my subscription. Your local editor does a very good job.

MRS. AGNES LASKIW.  
Camrose.

## "The Music Goes Round and Round"

From the "Anaconda Spearhead" New Toronto, Ont.

Once there was a farmer who raised corn, and a man who raised hens but no corn. The hens said "no corn no eggs." So the man agreed to work for the farmer one day a week for \$5 a day. And the farmer agreed to sell corn to the man for \$1 a bushel.

They paid each other off every time with the "long green." The farmer paid the man \$5 and the man paid the \$5 back to the farmer for the five bushels of corn which he wheeled home in his wheel-barrow. After a while, the man said to the farmer, "Everything's gone up, and I regret intensely to inform you that I can't work for less than \$6 a day."

The farmer said, "I understand. But you must understand that everything's going up with me too, and I regret intensely to inform you that I can't sell you my corn for less than \$1.20 a bushel." The man said he understood. So the man got \$6 a day and at \$1.20 a bushel paid the farmer the \$6 for five bushels of corn. Both of them said, "Happy days are here again."

By and by the man said to the farmer, "Things have gone up still more, and I can't work for less than \$7.50 a day." The farmer agreed that was fair, but told the man that things were going up still higher with him. He would have to get \$1.50 a bushel for the corn. The man agreed that was fair, and both said "Prosperity is here." After

all, the man was getting \$7.50 a day. The farmer was getting \$1.50 a bushel for corn, and the hens were getting five bushels as always.

And so things went until the man was getting \$10 a day and the farmer got \$2 for a bushel and the man gave the farmer \$10 for five bushels. And the hens kept right on laying, even on Thursday's, and the man told his wife, "Ain't it wonderful? . . . \$10 a day!"

And the farmer told his wife, "Ain't it wonderful . . . \$2 a bushel." And the hens kept clucking away on five bushels of corn.

And the statisticians down Washington way said, "Ain't it wonderful? . . . National income at record levels." And the politicians said, "Ain't it wonderful," and bragged that they had done it. And everybody felt so good, and prosperous that the man and the farmer voted for the politicians; and that is how it was "eggsactly."

The man got three times as much for the eggs, but paid three times as much for his shoes, "and the music went round and round."

## Wouldn't You Know It?

LANSING, Mich. — The record library of radio station WILS, mushrooming over the years, collapsed in a heap.

More than 7,000 records fell off shelves and racks, but only one was broken. It was: "How About That, Prosperity is here." After Mess?

*Buick Custom Riviera*

## "We did it Again!"

The dynamic darlings pictured here are the 1952 Buicks.

They have the *mightiest engines* in Buick history.

They have the *biggest brakes* of any postwar Buick.

They are the *quietest cars* that Buick ever built.

They have the *richest fabrics* and *smartest tailoring* that ever graced a Buick's interior.

They have the *greatest amount of usable trunk space* since spare tires moved off the front fenders.

They have the *most superb ride* in Buick's history.

They have the *finest carburetors* that Buick research has ever devised.

And with all their power, they deliver *more miles per gallon.*

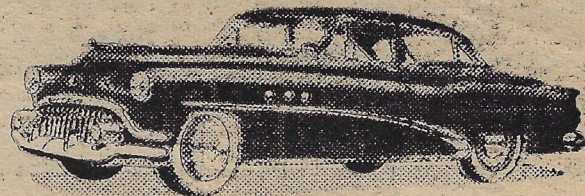

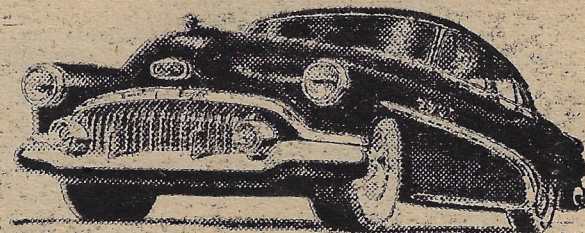

But that is not all.

For those who wish it, there is a brand-new version of *power-steering* on the ROADMASTER series that works like a helping hand—gives you the same sure feel of control you have always known, but never takes more than four pounds of effort to turn the wheel.

You'll find a host of notable features in all Buicks—ROADMASTERS, SUPERS and CUSTOMS too—plenty to make them, as always, the standout buys in their fields for ride, for comfort, for style, for room, and for power.

Come in—look this triumph over—over—and you'll decide that now is the time to put your best foot forward and own a Buick.

*Equipment, accessories, trim and models are subject to change without notice.*

The sales will be subject to the following terms and conditions:  
The Department reserves the right to withdraw any of the lands from the  
sale or to include any other lands therein.Lands sold shall be subject to reservation for existing surveyed roads, or  
roads hereafter surveyed, provided application for such reservation is made by the  
Provincial authorities prior to the issue of Patent. The areas of lands sold are  
subject to adjustment in accordance with the revised plans of survey.Purchasers of timbered lands must take out a permit subject to the usual  
dues and fees before cutting any timber except for their own use.Sand or gravel must not be removed from the lands sold until a permit has  
been obtained from the proper authorities and payment made of the required fee  
and dues.The sales will only convey the surface rights of the land and will be subject  
to the usual reservations in favour of the Crown.The sale shall convey to the purchaser only those improvements upon the  
land which are the property of the Crown at the date of sale and the purchaser  
shall not at any time, prior to the date of completion of payment, remove or cause  
to be removed from the land any of the said improvements, without the consent  
of the Minister of Lands and Forests being first obtained.

## TERMS OF PAYMENT

On areas in excess of forty acres: Payment in full of the purchase price shall  
be paid at the time of the sale or one-fifth of the purchase price shall be paid  
at the time of the sale and the balance of such purchase price shall be paid in  
nine equal, successive annual instalments, with interest at the rate of four per cent  
per annum, which interest shall be paid with each instalment on the balance  
thereof from time to time remaining unpaid. Any instalment not paid when due  
will be subject to interest at the rate of five per cent per annum.On areas of forty acres or less: Payment in full of the purchase price shall be  
paid at the time of the sale or one-fourth of the purchase price shall be paid  
at the time of the sale and the balance of such purchase price shall be paid in three  
equal, successive annual instalments, with interest at the rate of four per cent  
per annum, which interest shall be paid with each instalment on the balance  
thereof from time to time remaining unpaid. Any instalment not paid when due  
will be subject to interest at the rate of five per cent per annum.Upon a parcel of land being sold, the purchaser shall immediately pay the  
Clerk of Sale the full amount of the purchase price or pay the amount of the  
first instalment, and in addition make payment in full for the improvements upon  
the land which are the property of the Crown; otherwise the parcel will at once  
be put up again.Payment may be made in cash, or by marked cheque on any chartered Bank  
of Canada, payable at par at the place of sale, or by guaranteed non-negotiable  
transfer vouchers, certified non-negotiable transfer vouchers or certified cheques.  
Cheques, non-negotiable transfer vouchers or order cheques will not be taken  
in payment unless marked accepted by the Bank or Credit House on which they  
are drawn.Further particulars may be obtained by communicating with the Director of  
Lands, Department of Lands and Forests, Edmonton.Lists, giving full particulars of the lands to be offered for sale may be had  
on application to the Director of Lands, Edmonton.By Order,  
V. A. WOOD,  
Director of Lands.Department of Lands and Forests,  
Edmonton, Alberta.

Carelessness Brings  
900,000 Items to D.L.O.Insufficient addressing together  
with the sender's failure to wrap  
and pack parcels properly has re-  
sulted during the Christmas sea-  
son in nearly a million mail items  
reaching the Dead Letter Offices  
throughout Canada, instead of the  
addressees intended.In fact, well over 900,000 items of  
mail of all classes posted in ourlarger Canadian centres during the  
Christmas season were found to be  
undeliverable chiefly through faulty  
addressing alone, the Dead Letter  
Office officials of the Post Office  
Department declare.In addition a considerable quan-  
tity of liquor continues to be sent  
through the mails, though such  
practice is contrary to postal regu-  
lations, with the result that it  
must be sent to the Dead Letter  
Office and destroyed.To help ensure against loss be-  
cause of improper mailing prac-  
tices, the Post Office asks that  
all mailers be sure all mail is  
clearly, fully, and correctly ad-  
dressed, and that a return address  
be always given.  
All mail too, should be fully pre-  
paid. Parcels should be firmly and  
securely packed in shock-proof con-  
tainers, and securely wrapped with  
several folds of thick paper, and  
tied with strong twine. It is a good  
plan to enclose the address and  
senders address among contents,  
as well as on the wrapper.

### Cheaper

A firm believer in personal  
economy is a well-known editor.  
A salesman once endeavored to  
interest the editor in a hearing  
aid which sold for several hun-  
dred dollars.

"Oh, I can get along with some-  
thing much cheaper than that,"  
the editor told him. "You just  
wait here a minute, and I'll show  
you."

He disappeared into the inner  
recesses of his private office, and  
a few moments later reappeared  
with a tiny wire running from his  
vest pocket to his ear.

"This," the editor proclaimed,  
"can be purchased for a few  
cents."

"That!" the salesman hooted.  
"How can a little scrap of wire  
help you to hear?"

"When people see this," he re-  
joined, "they'll talk louder."

### The Reason

"Three policemen have been  
watching Brown's house con-  
stantly the last two nights."

"What has Brown done?"  
"Engaged a new cook."

### Robs Peter to Pay Paul?

"You say he is a man of parts?"  
"He certainly is. Half the time  
he plays the part of a philanthrop-  
ist, and the other half of the  
time a public robber."

### Just a Little Thing

Salesman—"What kind of car  
would you like, madam, four, six  
or eight cylinders?"

Timid Customer—"Couldn't I  
begin with one?"

## \$1 for BRIGHT SAYINGS

The Editor will pay \$1.00 for  
each child's saying printed. Ad-  
dress "Bright Sayings", P. O. Box  
4368, South Edmonton.

I assist my husband in his busi-  
ness, and when returning home  
from work my 8-year-old son, Alex  
said: "I'll be glad when you get  
that baby sister you're always talk-  
ing about then you won't be able  
to work at the store." Six-year old  
Edward piped up: "Don't worry,  
Alex. It won't be long now. I'll get  
her one for her birthday."

Brandon, Man. Mrs. A. F. Pue.

One fine summer day I was scal-  
ing a fish outside when my three-  
year-old daughter came over and  
said: "Gosh Mummy that fish sure  
has a lot of buttons."

Mrs. S. Dawson.  
Spruce Grove, Alta.

A little fellow's big brother had  
died. The youngster couldn't un-  
derstand about death and that his  
brother would never return. "Oh,"  
he said, "Never is a long time, isn't  
it, Mummy?"  
South Edmonton.

## Testing For Bang's Extended In Alberta

Progress in vaccinating Alberta  
calves against Bang's disease is in-  
dicated in figures released by Hon.  
D. A. Ure, Minister of Agriculture.  
During the first year of the Alberta  
program, 1943, approximately 200  
calves were vaccinated. In 1948, the  
number for the year had risen to  
11,500; in 1949 to 21,000 and in 1950  
vaccination was provided for 46,300.  
Continuing this increase, the report  
shows that 76,348 head were vacci-  
nated in the year just passed, in  
spite of unfavorable fall weather  
and icy roads which interfered with  
the work of the veterinarians. Had  
it not been for the autumn difficul-  
ties, 85,000 calves would have re-  
ceived the vaccine during the year.

The municipalities of Wain-  
wright, Starland, Vermilion River,  
Beaver, Strathcona, Athabasca and  
Pincher Creek have now been de-  
clared Brucellosis Restricted Areas.  
In these areas, vaccination of all  
heifer calves is compulsory. Adher-  
ance to this procedure for a few  
years, will, it is thought, virtually  
eradicate the disease in cattle herds  
in these municipalities. It will also  
help to prevent undulant fever in  
humans.

### Time to Treat Crops With 2,4-D

The essence of success in the  
control of weeds in growing crops  
by 2,4-D rests not only in employing  
the right chemicals at the right  
concentrations but also in spraying  
or dusting at the right stage of  
both weed and crop growth.

**Treat Early.** It cannot be  
stressed too strongly that the best  
results with 2,4-D are obtained  
when annual weeds such as Wild  
Mustard and Stinkweed are treated  
in the seedling stage. Once annual  
weeds have grown large their  
resistance to 2,4-D increases  
rapidly. In consequence, the later  
the spraying or dusting is left the  
greater will be the amount of 2,4-D  
required to obtain a first-class kill,  
and the longer will the weeds be  
given a chance to compete with the  
crop. Treat early.

**Stage of Crops.** Although it is  
important to treat the weeds as  
soon as the seedling stage is reached  
it is equally important to bear in  
mind the stage of crop growth.  
Too early or too late treatment  
with 2,4-D is likely to lead to crop  
injury. In the case of cereal crops  
(wheat, oats, and barley), it is  
essential to wait until the grain  
plants are in the 3-leaf stage, or  
about 6 inches high, before they  
are treated. 2,4-D should not be  
applied to cereal crops after the  
plants have reached the early shot-  
blade stage. On no account should  
cereal crops be treated when the  
plants are in the flowering or early-  
heading stages of growth. With  
flax, treatment with 2,4-D should  
be made at the earliest opportunity  
after the flax plants have formed  
4 or 5 leaves, since the weeds then  
will be more readily killed. Flax  
crops should not be sprayed or  
dusted with 2,4-D once the plants  
have started to bud. Late treatment  
of flax is likely to cause serious  
crop injury.

**Seek Advice.** More detailed  
information on the proper time to  
apply 2,4-D can be obtained from  
your local Line Elevator Agent.  
Ask him for a copy of our "2,4-D  
Time Treatment Chart." Remember  
early treatment with 2,4-D is  
essential for effective, economical  
weed control.

## LETTERS TO LOUISA

Dear Louisa:

My child is not interested in school and I do not know what I can do to make him so. He is very clever with his hands, making things but does not care for books.

MOTHER.

Answer:

I imagine that the vocational work in school will appeal to him. A child has to be interested in what he is studying to like it and his teacher also has a great deal to do with how he likes his school work. Let him take up wood work or something like that which calls for skillful hands, in addition to several studies.

LOUISA.

Dear Louisa:

I was engaged to a boy for two years but we broke up last month. He gave me some nice presents but nothing valuable but a dia-

mond ring. I have returned the ring but my mother thinks I should send everything he ever gave me, such as a camera and golf sticks, back. What do you think,

NINETEEN.

Answer:

Just send the ring back. The other gifts were probably birthday or Christmas gifts and it is not customary to send such things back.

LOUISA.

## Overseas Scots' Reunion

The Overseas Scots' Reunion Club is again sponsoring a trip back to Scotland.

Four Trans Canada North Star Skyliners have been chartered to carry the party.

They will leave Montreal (Dorval Airport) May 29 to May 31, inclusive, returning from Prestwick June 28, July 11, 28 and 29.

R. J. Jamieson, 10947 85 Ave., is the Northern Alberta representative.

## \$1 for EMBARRASSING MOMENTS

The Editor will pay \$1.00 for every item published on "The Most Embarrassing Moment of My Life". Address "Embarrassing Moments", P.O. Box 4388, South Edmonton.

While entertaining Sunday guests I finished setting the table and backed into my favorite chair and sat down. Only I didn't sit in any chair—I sat on the floor! One of the guests had moved it meanwhile. Imagine my embarrassment as I painfully struggled to my feet. Next time I'll look behind me to make certain the chair is there!

ROSE-MARIE SMERCHINSKI  
Bon Accord, Alta.

Returning from a visit to my husband, who was in hospital, with my mother-in-law, we met a man whom I introduced to her as my uncle. She asked a question or two and found out he had long since been a neighbor of the family and was no uncle! I had mistaken him for my uncle, and was very much embarrassed by the incident.

MRS. ROLAND NOEL.

Vancouver, B.C.

While at a wedding dinner I accidentally spilt a glass of wine on the bride's gown. As I was a new-comer in the district, I did not know her well, but it embarrassed me just the same.

## In Reply To "The Traveller"

In this matter of our publicized  
confliction  
Where you would hint my poetry  
profane,  
Have you not faith enough in your  
own convictions  
To certify your comments with  
your name?

In your travels, Mr. Traveller, I  
have reason to believe,  
You have not travelled very far—  
For it is apparent that your mind  
is not well seasoned,  
And your comprehension's  
considerably under par.

From your borrowed verse  
I draw the one conclusion  
That you think I merely criticize  
the town  
Because of personal feelings and  
delusions,  
And it's not the town, but me,  
that is dead wrong.

I must tell it has not been my  
intention  
To slander, or the town's respect  
unbraid,  
But merely to draw the right  
attention  
To a case where improvements  
could be made.

To love and respect one's town  
is commendable,  
But blind love is never very wise.  
And one way to keep our faith  
unbendable  
Is to regard the facts with  
unbiased eyes.

Is improvement then too much for  
us to try for?  
Is there not pride in striving to  
succeed?  
Oh, I hope the public still have  
rights to cry for  
Improvement where there is  
crying need.

N.B.—Among the men of the  
Augustan age who dearly loved  
England were Richard Steele and  
Joseph Addison. One would not  
have thought so to have read some  
of their literary works.

L. DeGRAFF.

## EGG LAKE NEWS BRIEFS

Mr. and Mrs. Armand Pare  
and Mr. and Mrs. Leo Theroux  
from Legal were recent visitors  
at the home of Mr. Edmond Pare  
and Ernest Pare recently.

Mr. and Mrs. A. L. L'Heureux  
had the pleasure of welcoming  
their daughter, Mary Jeanne and  
her husband, Jim Rudiger, who  
came from Dawson Creek, B.C.,  
recently.

Miss Delia Huppé is working  
for Mrs. Paul Stephanyk at  
Briereville.

Mr. Charles Girard has returned  
to the lumber camp, after  
spending a few days at home.

Mr. Eugene Strumelak has gone  
to work in the bush.

Mr. and Mrs. Robert Lemay are  
giving a card party in their home.  
Proceeds will go to the church  
fund.

## Caslan Student Union Holds First Meeting

CASLAN — The first meet-  
ing of Caslan's Student's Union  
was held on Feb. 11, 1952.

Elected staff is as follows:

President, Mr. Wilfred Woy-  
chuk, vice-president, Mr. Donald  
Gordey; secretary-treasurer, Miss  
Eunice Gordey; boys' sports con-  
vener, Mr. Bob Sawchuk; social  
convener, Stella Sawka; girls'  
sports convener, Evelyn Kraw-  
chuk.

A very successful Valentine  
party was held at Caslan School.  
Samuel Sawka and Audrey Lo-  
zinski were crowned King and  
Queen of Hearts for the Junior  
room.

Miss Elsie Chomay, teacher of  
Caslan Junior room, was home  
to Abee for a visit.

Mrs. Emily Sawchuk, teacher  
in Caslan High School, purchased  
a new 1951 Ford car.

Mr. Wilfred Woychuk is still  
making his monthly trips to Lac  
la Biche to keep up his Sea Cadet  
training.

Miss Stella Sawka is going to  
Boyle on Saturday to see her

sister, Ruth, who just had an  
operation.

The school van has no difficulty  
in hauling children now, as the  
roads are snow-plowed.

Donald Gordey is doing very  
well in French. He has made 100  
per cent in every test.

Evelyn Krawchuk went to Ed-  
monton with her father on busi-  
ness.

Mrs. Emily Sawchuk's mother  
visited with her for a week. Dur-  
ing her stay here she visited her  
son, Paul Bahry and family, who  
reside at Sarraill.

## SPRUCE VALLEY NEWS BRIEFS

On Wednesday, Feb. 20, Mr.  
and Mrs. Fred Ryl opened their  
store, and business is very good.  
Residents are glad to hear that  
the store is in operation, since it  
is situated in the centre of the  
district.

On Sunday, Feb. 24, a Ukrain-  
ian show was held in the district  
hall. There was a large attendance.  
People came from the surround-  
ing districts, even as far as from  
Blue Jay, Frains and Plamondon.

On Monday, Feb. 25, Mr. and  
Mrs. Peter Koltowski went to  
Edmonton with their truck.

## GRASSLAND NEWS BRIEFS

A surprise party was held at  
the home of Mr. and Mrs. Mike  
Duniec on Saturday to celebrate  
the completion of their new home  
at Grassland.

A capacity crowd greeted Mon-  
tana Steve and his company, in-  
cluding the smartest horse in  
Canada, on Tuesday. Almost 400  
people strained the accommoda-  
tion of the Community Hall to its  
limits.

The engagement is announced  
between Miss Olga Gawryletz,  
school teacher of Grassland, and  
Mr. Nick Fedorchuk. Wedding to  
take place at Grassland, Saturday,  
March 1.

Mr. and Mrs. Con Scmeniuk of  
Big Valley were visitors of the  
home of Mr. and Mrs. D. S. Sem-  
eniuk over the week-end.

Miss Effie Andryk, Grade I  
and II teacher at Grassland, was  
absent from school for a few days  
last week, receiving medical at-  
tention at Lac la Biche.

Mrs. Storonianki visited with  
her daughter, Mary, in Edmonton  
last week.

Ralph Kritze is working at Mile  
37.

Mr. D. S. Semeniuk attended

the School Trustees' convention in  
Edmonton last week.

Mr. and Mrs. Mike Derko of  
Vimy have been visiting their son,  
Nick Derko, at Grassland.

## CASLAN NEWS BRIEFS

Earl Gordon was a visitor in  
Edmonton recently.

The oil workers have again  
started work south of Caslan.

Mr. and Mrs. N. Walansky have  
returned from Edmonton after a  
short holiday.

Mr. F. Krueger has returned to  
his job after spending about two  
months with his family.

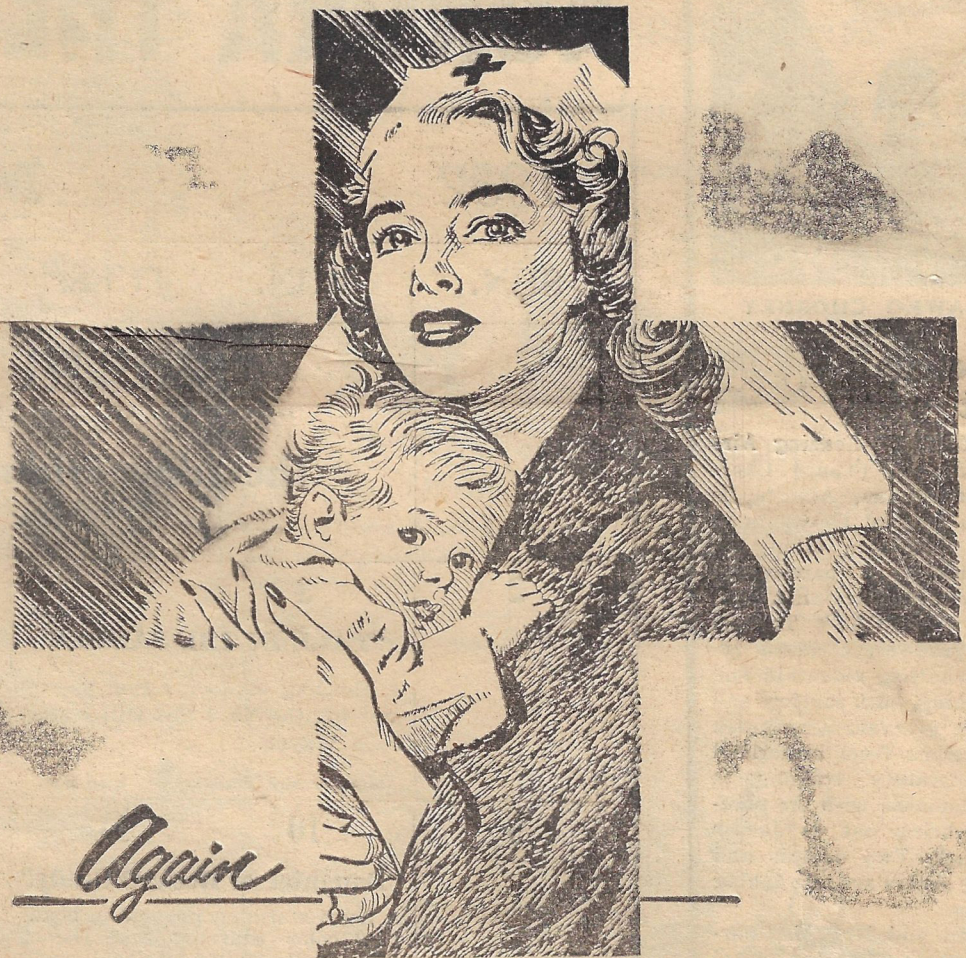

Mr. Wm. Krawchuk and Peter  
motored home after several days  
in the city.

Mr. and Mrs. John Samka and  
family motored to Lac la Biche  
during the week. Their son Barry  
is in the hospital for a few days.

Mr. and Mrs. W. Wolansky took  
their son Lawrence to Edmonton  
for medical attention.

Miss Marian Johnson is visiting  
her sister, Mrs. J. Joncas, in Lac  
la Biche.

In mileage the CNR is the larg-  
est railway in North America and  
it is the only railway serving all  
ten provinces of Canada.

# THE CHALLENGE

This year again the Red Cross Appeal presents us with a challenge  
... and an opportunity. New victims of war wounds, greater  
need of lifesaving blood transfusion services, the inevitability  
of great disasters of fire and flood... all must find the Red Cross  
ready. As the need to alleviate suffering grows, the generosity of  
Canadians grows too. But today the task is almost beyond  
measure. There is the challenge. The opportunity to help is  
before you.

Give TODAY to carry on tomorrow's work of mercy

\$5,222,000 is urgently needed to

KEEP YOUR RED CROSS STRONG

Gifts to your Red Cross are wisely used. Each year the accounting is approved  
by auditors of the Dominion Government.

# 1952 CARINVAL QUEEN CROWNED

## 2 NIGHTS' ENTERTAINMENT STAGED

WASKATENAU—Emily Melnyk, of Leeshore, was crowned Queen of Waskatenau Winter Carnival on Feb. 22 in the Community Hall.

The decoration scheme in the hall, planned by Mrs. Zadunyski and Miss Chorney, was carried out in blue, pink and white. The blue and silver throne, surrounded by large shimmering ice blocks, stood against a back ground representing a winter sky studded with stars. Miss Lena Kotylak, last year's Queen came from Edmonton and crowned her successor. The Queen and Princesses were trumpeted in by the orchestra leader. The Queen was presented with a gold, 17 jewel LeRoy wrist watch. The Princesses, the Misses M. Sawchuk, K. Olansky and Diane Wolansky received gifts of compacts. Master Tommy Werun, the page boy, scoring such feminine fripperies took his gift in cold cash.

L/A SLAWKO CHORNEY

### Para-Rescue Student

WASKATENAU—Leading Aircraftsman Slawko (Tony) Chorney of Waskatenau, Alberta, is one of nine medical assistants at present in Edmonton taking an 18 week course in para-rescue work. The rugged training, conducted by the RCAF's Tactical Air Group para-rescue school, includes parachuting, mountain and glacier climbing, bush survival and the methods of evacuating crash or other victims from hinterland areas. Preparatory training is taken in Edmonton with the practical work being out at Jasper National Park. Two doctors and five nursing sisters are also taking the training.

Son of Mr. and Mrs. M. Chorney, Waskatenau, Alta., LAC Chorney was born at Eldorena, Alta., and received his education at Sprucefield, Alta. He enlisted in the RCAF in June 1947 and served for three years at Whitehorse, Y.T. prior to being posted to Gimli, Manitoba, where he was stationed immediately prior to attending the para-rescue course. He is married and his own family reside at 48 Lake Street, Gimli, Man.

### Women's Rinks To Enter Bonspiel

SMOKY LAKE—Two Smoky Lake women's rinks took part in the Redwater bonspiel last weekend. One rink, skipped by Mrs. M. Shemeluk, was comprised of Mrs. H. Kostash, 3rd; Mrs. F. Cumming 2nd, and Mrs. J. W. Romanchuk as lead.

The other rink was skipped by Mrs. M. Ratsoy, Mrs. Mary Felewyeh, 3rd; Mrs. P. Sembaluk 2nd, and Mrs. F. Stokle as lead.

The girls didn't come home with any prizes, but admit that they really enjoyed the games, especially playing with "stiff" opposition from Edmonton rinks.

day with hockey games. In Pee Wee game between Waskatenau and Warspite the score was 5-4. In the Junior game between Smoky Lake and Thorhild, Smoky Smoky Lake won 6-4.

In the hall, Bingo and other games were in full swing until the hour arrived for the evening show by Walter Melnyk of Warspite. Mr. Melnyk's performance was much enjoyed, as were the numbers by Waskatenau pupils; N. Wonechko with his piano accompaniment; Mary Dittloff and Lily Wolansky violin and guitar duet; Victoria and Sylvia Esepenco, vocal duet; and an action song by Donna and Maureen Dorash.

W. Chaba, president of Sports Club, was in charge of Bingo; Leonard Latka was busy with the fish pond; G. Shapka looked after the hockey; Mrs. Elliott and H. Lunn were in charge of food arrangements, while N. Makarenko superintended the P.A. system.

In Friday's hockey, Waskatenau Pee Wees played Radway and won 1-0. In the Junior game,

Smoky Lake defeated Waskatenau 5-3.

Mrs. Elliott and Mrs. Hawralak were in charge of the ice show on Friday evening. Thirty costumed skaters entered the parade. First prize was won by Sylvia Esepenco and Lily Sawchuk. The skating races were keenly contested. Fourteen prizes in all were given out. The judging committee at the ice show consisted of A. Kinash, Mrs. Chaba and Mrs. Clark.

At the dance, tickets for the prizes were drawn by Tommy Werun. The prizes, a 66-piece dinner set, an eiderdown comforter, and an overnight bag were won by G. Melnyk, F. Kaminsky and Evelyn Kotylak. A prize of a wrist watch was won by R. Clark. The Carnival Committee, C. Isaman, Mr. and Mrs. Zedunyski and Miss Chorney, are receiving much praise for the outstanding success of the event. They, with becoming modesty, claim that all credit is due to the excellent cooperation of all to whom the various tasks were allotted. Cer-

### Vilna Pays Tribute To Late King

VILNA—In memory of the late King George VI, Father Fedunyk held a memorial church service in the Greek Catholic church on Wednesday, Feb. 13, in the afternoon. The school children were permitted to miss some school and attend the service. The cadet boys marched into the church and participated in the ceremony.

On Friday the Roman Catholic church and the United church held their services.

certainly everything went with the smoothness which is the result of good planning and execution.

The financial results are gratifying as well, and should leave a good profit, which will be used by the Sports Club for some project of value to the community.

Freight rates in Canada, despite the long hauls through unsettled country, are among the lowest in the world.

## Frances Slager Appointed School Reporter

LAC LA BICHE—To assist in getting more news of the various school and youth activities taking place in Lac la Biche, Miss Frances Slager has been appointed to report such news to the Lac la Biche Herald.

Frances is a Grade XI student at the High School and enjoys composition and literature studies. With the help and co-operation of young and old alike, Frances will be able to report on many activities that have not been covered in the Herald.

## Renovations To School Classrooms

LAC LA BICHE — Last week workmen were busily engaged in putting insulation board ceilings in classrooms which up until now have had only rough lumber ceilings. Grade IX classroom was done first, and then Grade X-XI classroom.

It is intended to finish all the classrooms with the new ceiling material. Not only will the appearance of the rooms be greatly improved, but they will be easier to heat. Other advantages are better acoustics and better distribution of light in the rooms.

## Annual School Meeting Held

IMPERIAL MILLS — The annual meeting of the local school board was held here on Thursday,

February 28, with Mrs. R. G. Fisher acting as chairman and Mr. G. Smith, secretary. A small turnout of ratepayers was present. Among the business discussed was additional recreation facilities for the smaller children at the school and the possibilities of a district nurse coming to the community.

The election of trustees to replace Mr. Terrien, who has moved away, and Mr. Bob Almond, who's term expired this year, resulted in Mr. Almond being re-elected for two more years, and Mr. Richard Couture for three years, both by acclamation.

## Ponder Awhile

By E. DIXON

I wonder how many heard Mr. Stan Ross in "One Man's Viewpoint," on the use of aluminum ware? Believe me, it was well worth hearing. It cleared up a lot of misgivings regarding its use, for me. So, folks, don't let any glib-tongued salesman talk you into selling yours at so much a pound to buy his wares.

No one has ever found aluminum was harmful or caused any illness. Mr. Ross said all hospitals use aluminum ware and were finding more uses for it as time goes by, and the hospital is a place to make the sick well, not to make them sick. So why would they use aluminum if it was harmful?

The largest drydock in the British Empire is at Saint John N.B.

## Serving In Germany; Gets Promotion

HANOVER, GERMANY — L. Cpl. Robert Seenum, of Good Fish Lake, Alta., now serving in Germany with the Loyal Edmonton Regiment's Company of 1st Canadian Infantry Battalion, has been promoted to the acting rank of corporal, his unit has announced. Cpl. Seenum joined the army in May of last year.

His mother, Mrs. Edward Seenum, lives at Fish Lake.

## Couple Celebrate Silver Anniversary

Mr. and Mrs. J. F. Couslon of Edmonton marked their silver wedding anniversary recently by a surprise party given in their honor. About thirty guests were present. The Couslons were married in MacDougall Church, Edmonton in 1927, and lived at Ashmont until 1929 when they came to Waskatenau. In 1950 they moved to the city where they still reside. A silver tea service was presented to the

couple by the guests. Vocal solos Clung, Mrs. W. Pollard and Elsie were rendered by Mrs. R. E. Mac-Couslon.

THE SAWMILL  
D. G. Sandilands

YOUR  
BEST  
SECURITY  
IS  
*Alberta's*  
FUTURE

Old-timers of the North Saskatchewan may recognize this sawmill as typical of many long since moved to more forested areas. The lumber industry, like all others in the Province, has grown immensely during the past few decades. In many cases, this growth has been helped by the service of Provincial Treasury Branches.

Designed for complete service to both individual and company, Treasury Branches cover a wide range of needs all over the Province. Backed by the entire resources of Alberta, dedicated to the growth of Alberta, you'll find your Treasury Branch a friendly, helpful place to deal.

## LAC LA BICHE NEWS NOTES

Mrs. A. Beaudry visited her mother, Mrs. Johnston in Edmonton.

Al Wilson, employed with the Medhurst Drilling, returned to Edmonton to his home for a short visit. From there he will go to Foremost, Alberta, where he is employed with the oil rig.

Mr. and Mrs. Harry Fisher, formerly of Lac la Biche, now residing at High Prairie, are the proud parents of a 7½ lb. baby girl, born February 22, Cecilia Ann.

Ed. Havirko was a business visitor in the City.

Miss Mary Uganetz is employed at the Alberta Cafe.

The Trail Ranges went to Colinton Saturday and played hockey. The score was 7-1 in favor of Colinton.

Mrs. Martin is home from Edmonton Hospital. She is progressing favorably after a major operation.

Constable John Moisey resigned his position as town policeman. He was with the service for the past four years.

Mrs. Fred Lewis was in the city one day last week.

Jim Lloyd, assistant agent from Slave Lake, formerly of Lac la Biche, has been transferred here at the NAR station.

Mr. C. J. Swansen, station agent from Thorhild, was a week end visitor.

Mr. Joe Breau from Donnelly is employed at the NAR as agent.

Miss Grace Jones returned to

her home in Edmonton. She has been employed in the doctor's office for the past two years. Miss June Wynn from Edmonton took the position at the office.

Mr. and Mrs. Ike Settles went to Seattle, Washington, U.S.A., for two weeks to visit Ike's mother.

Hon Drilling have moved to drill well No. 2. They are located 35 miles northwest of Lac la Biche. They put a head on well No. 1 as they struck a good flow of gas 700 feet down.

Miss Val Renfrew visited her sister and friends at her home in Edmonton.

Mr. and Mrs. Gordon Steinman and son, Dennis, from Edmonton, visited Mrs. Steinman's parents, Mr. and Mrs. F. A. Coutney, for the past week.

Mr. and Mrs. Grant Hill is moving to Lloydminster. Mr. Hill is toolpush for the Delhi Drilling Company.

Medhurst Drilling has moved to their second location. This well is located 22 miles from town and 12 miles from the lake.

Mr. J. S. Brown from Portland, Oregon, U.S.A., visited friends here for the past week, and reports he likes the climate here very much.

Mrs. S. M. Smead from Edmonton visited friends here enroute to McMurray to visit her sister.

A large crowd attended both Leap Year shows at the Aurora Theatre on February 29. Ladies were free if accompanied by their husband or boy friend. School-girls were admitted free of charge.

### The Main Thing

Having only recently moved into the district she was determined to impress the neighbors. She arranged for a musical at

home, and told her husband to see to the booking of a musician to entertain the guests.

"Have you engaged the pianist yet?" she asked her husband a few days before the great eve-

ning. "Yes, my dear," he replied, "a great virtuoso." She looked annoyed. "Never mind about his morals. Can he play the piano?"
